EEO Community All Hands Retreat
May 25, 2004**

Evaluation Survey Results

Thank you for your participation in the May 25 EEO Community All Hands Retreat. As discussed, our objective is to continue sharing information, soliciting input and responding to the ideas, issues and concerns of the NIH EEO community and ICs as we develop the EEO Restructuring Plan. As part of the two-way communication process, we would like to share with you, the Final Retreat Report and this summary of the evaluation sheets that were submitted.

Overall, the Retreat was well received. Of the 64 participants who submitted an evaluation, sixty percent felt that the retreat met their expectations and seventy percent felt that the retreat was a positive experience. On the “What we can do differently” side, we have noted your concerns regarding the room set up (difficulty in hearing the discussions, temperature, etc.) and recommendations regarding the presentation format (breakout sessions). Your comments will be taken into consideration as we work to ensure that the newly restructured organization will meet the needs and expectations of the of the entire NIH community. Again, thank you for your feedback and support.
